### ORGANIZATION DESCRIPTION

Bernard GABORIT is a farmer, a producer and a maker of organic dairy products, a pioneer in organic farming since 1979.

The values of Maison GABORIT, a pioneer in organic farming since 1979, are based on respect for nature, animals and people. For more than 20 years, trusted partnerships have been established with breeders of Jersey cows, goats (Pays de la Loire and Deux-Sèvres) and sheep (Aveyron). Maison GABORIT and its partner breeders are all Bio Cohérence certified: that guarantees more demanding organic practices: 100% organic farm, French production, link to the soil. The company's desire is to always transform fresh milk of exceptional quality thanks to organic farming and the choice of the best breeds.

In order to preserve the flavors and benefits of the milk, the dairy chooses to transform it using traditional techniques: slow pasteurization in a bain-marie, without adding milk powder, and without homogenizing the milk. Today Maison GABORIT offers more than 60 fresh and refined organic dairy products.
